### Declaration of suitability of materials intended for food contact

CSM TUBE spa produces semi-finished stainless-steel products in the form of TIG/Laser welded tubes in coils or rods that are always intended for further processing and substantial transformation by its customers.

Therefore, products placed on the market by CSM TUBE spa cannot be considered as *finished products* intended to come into contact with foodstuffs. Therefore, EC Regulation 1935/2004 is not applicable, and for this reason CSM TUBE spa is not required to issue any declaration that its products comply with this regulation.

CSM TUBE spa also declares that:

- the steel qualities referred to in Table 1 are contained in the Positive List indicated in *Decree no. 208 of 25 November 2022 (Annex I - Part A) updating Ministerial Decree of 21 March 1973.*
- it operates within a Quality Management System certified in accordance with **UNI EN ISO 9001**.

With regard to the above, pursuant to MD 21/03/1973 and its subsequent updates, steels of the qualities indicated in Table 1, supplied by CSM TUBE spa in the form of TIG/Laser welded tubes in coils or rods, may be used for the manufacture of objects intended to come into contact with foodstuffs.
