REACH AND RoHS DECLARATION OF CONFORMITY

CSM TUBE spa guarantees that all the products we supply to you, both heat-treated and non-heat-treated stainless steel tubes, comply with current environmental safety and health protection regulations.

REACH (Regulation (EC) 1907/2006)

We hereby confirm the compliance of our products with Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

According to the structure of the REACH Regulation, our company is a manufacturer of "articles", we do not produce substances or preparations, and our articles under normal and reasonable conditions of use do not involve the intentional release of substances.

Registration or pre-registration or authorisation is therefore not required for the product that we supply.

We also confirm that the products we currently supply to you do not contain any substances of very high concern (SVHC) as defined and listed in Articles 57 and 59 of the Regulation in quantities exceeding 0.1 % by weight.

However, we carry out periodic audits with our suppliers in order to ensure that they maintain compliance with the aforementioned Regulation, as well as to monitor any regulatory updates and the inclusion of new substances in the SVHC list, thus ensuring control throughout the entire supply chain.

We inform you that our products may contain nickel, a substance restricted under Annex XVII (point 27).

RoHS (Directive 2011/65/EU, 2015/863/EU and 2017/2102/EU)

We hereby confirm the compliance of our products with the requirements and exemptions set out in European Directive 2011/65/EU and subsequent amendments to European Directives 2015/863/EU and 2017/2102/EU.

We remain at your disposal for any further clarification.

CSM TUBE spa
P. Carpanini
(Chief Executive Officer)
